

SANJEEV KUMAR JHA

Senior AD & Entra ID Specialist | IT Infrastructure & Identity Management Expert | Data Center & Cloud Security Architect

+91 9899114466

85sjha@gmail.com

PROFILE SUMMARY (please confirm below points)

- Accomplished IT Infrastructure & Identity Specialist** with 18+ years of global experience architecting, securing, and optimizing large-scale Active Directory (AD), Microsoft Entra ID (Azure AD), and hybrid identity environments for enterprise clients across aviation, finance, energy, and telecom sectors.
- Proven IAM & Infrastructure Leader** with a strong track record of managing and mentoring 20–30+ member cross-functional teams, driving operational excellence, and aligning identity strategies with stringent security, compliance, and business continuity objectives.
- Architect of High-Availability, Multi-Domain AD Ecosystems** supporting 50,000+ users, leveraging Hybrid Identity, Zero Trust, and RBAC/PIM frameworks to deliver secure, scalable, and high-performance solutions.
- Specialist in Enterprise Identity Platforms** including Quest One Identity Manager, Microsoft Identity Manager (MIM), and Entra Connect — enabling seamless integration, lifecycle management, access governance, and automation for complex IAM environments.
- Expert in Enterprise Migrations & Transformations**, leading complex AD, VMware, and Nutanix migrations with zero downtime, ensuring uninterrupted business operations and stakeholder confidence.
- Strategic Problem Solver** adept at automation (PowerShell), domain controller hardening, GPO management, and cloud identity federation (AAD Connect, SAML, OAuth, OpenID), driving both security posture and operational efficiency.
- Recognized for Excellence** through multiple client satisfaction awards, flawless patch management execution, and infrastructure optimization initiatives, consistently delivering measurable business value.
- Trusted Advisor to Cybersecurity Teams**, implementing Conditional Access, MFA, and Privileged Identity Management in alignment with Zero Trust principles.
- Strong Stakeholder Engagement Skills** with extensive international exposure, including onsite leadership in Australia, and a deep understanding of offshore delivery models, governance frameworks, and customer relationship management.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA)
Diploma in Computer Hardware and Networking (1 Year)
Microsoft Certified Professional (MCP)
Cisco Certified Network Associate (CCNA)
AZ-104: Azure Administrator Associate
AZ-303 & AZ-304: Azure Solutions Architect Expert
AZ-500: Azure Security Engineer Associate

COMPETENCIES

- Active Directory (AD) Administration
- Hybrid Identity & Azure AD Connect
- Group Policy Objects (GPO)
- Federation Services (ADFS, SAML, OAuth, OpenID)
- Role-Based Access Control (RBAC)
- Windows Server Administration (2008–2022)
- VMware & Nutanix Virtualization
- Domain Controller Deployment & Hardening
- Security Compliance & Audit Readiness
- Microsoft Entra ID (Azure AD)
- Identity and Access Management (IAM)
- Single Sign-On (SSO) & Multi-Factor Authentication (MFA)
- Privileged Identity Management (PIM)
- Zero Trust Security Architecture
- PowerShell Scripting & Automation
- Disaster Recovery & Business Continuity
- IT Team Leadership & Offshore Coordination
- Cloud Identity Integration & Management

CAREER TIMELINE

WORK EXPERIENCE

Senior Active Directory & Entra ID Engineer | Coforge Ltd | August 2021 – Present | | Location: Greater Noida, India | Projects: Virgin Australia Airlines, Beacon Rail, West, ISDB

- Spearheaded customer engagement both offshore and onsite, including a 1.3-year strategic assignment in Brisbane for Virgin Australia, ensuring seamless delivery and stakeholder alignment.
- Directed cross-functional teams exceeding 20 engineers, orchestrating the delivery of enterprise identity infrastructure solutions across AD, Microsoft Entra Connect, Quest One Identity, VMware, and Nutanix platforms.
- Designed and governed a multi-domain Active Directory environment supporting 50,000+ users with high availability and resilience.
- Administered and fortified Microsoft Entra ID (Azure AD) environments, enhancing cloud identity lifecycle management and access control.
- Led the end-to-end integration of hybrid identity architecture using Azure AD Connect, delivering unified authentication and identity federation.
- Engineered Zero Trust frameworks by deploying Conditional Access, Privileged Identity Management (PIM), and advanced access governance models.
- Standardized enterprise-wide security configurations by designing and enforcing Group Policy Objects (GPOs).
- Scripted and automated key administrative processes using PowerShell, driving operational efficiency and error reduction.
- Oversaw domain controller provisioning, replication topologies, and health checks to maintain directory integrity.
- Collaborated with cybersecurity stakeholders to implement Identity Protection, MFA, and Single Sign-On (SSO), aligning with regulatory and security compliance mandates.

Consultant – Active Directory & Identity Management Specialist | HCL Technologies Ltd | July 2018 – August 2021 | Location: Noida, India | Projects: DNB (Norway), SSE (UK)

- Supervised a 30+-member identity services team, facilitating seamless delivery and operational excellence across Active Directory, Azure AD Connect, ADFS, MIM, and RBAC solutions.
- Engineered and sustained a robust enterprise-level Active Directory infrastructure, optimizing performance and scalability.
- Orchestrated cloud identity integrations using Azure AD, ADFS, and SAML, enhancing cross-platform authentication and user experience.
- Led complex AD migrations, domain consolidations, and upgrade projects, ensuring zero business disruption.
- Instituted Role-Based Access Control (RBAC) frameworks, improving access governance and audit readiness.
- Delivered Tier 3 escalated support for critical authentication and directory replication issues.
- Conducted comprehensive security audits and implemented AD hardening protocols to mitigate vulnerabilities.

Senior System Associate – IT System Administrator | DXC Technology (formerly CSC India Pvt. Ltd) | December 2013 – July 2018 | Location: Noida, India | Projects: Cargill, Telenor, Belron, Whitbread

- Managed lifecycle operations for AD user accounts, security groups, and OUs, ensuring directory hygiene and compliance.
- Diagnosed complex authentication anomalies and enforced domain policy configurations.
- Maintained Windows Server infrastructure, including DNS and DHCP services, to ensure high service availability.

Technical Specialist | HCL Technologies Ltd | September 2009 – December 2013 | Location: Noida, India | Projects: Volvo IT Global, Xerox

- Administered enterprise Windows Server environments, enforced group policy configurations, and maintained directory services integrity.
- Delivered mission-critical support, achieving SLA adherence through swift root-cause analysis and resolution.

System Administrator | Trimax IT Infrastructure Ltd | February 2007 – September 2009 | Location: Gurgaon, India | Project: Intelenet Global Services

- Deployed & managed over 200+ Windows servers in a high-availability data center, ensuring optimal system performance and security posture.

Customer Support Engineer | PC Solution Pvt. Ltd | November 2005 – December 2006 | Location: Gurgaon, India | Project: Ranbaxy Laboratories Ltd.

- Delivered comprehensive IT support including server management, end-user assistance, and infrastructure troubleshooting, ensuring continuous IT operations.

TRAININGS

- **Exchange Server 2007/2010** – Network Nuts, Preet Vihar Center
- **VMware Fundamentals** – Internal Training, DXC Technology India Pvt. Ltd.
- **Citrix Virtualization** – Internal Training, DXC Technology India Pvt. Ltd.
- **Microsoft ADFS & Azure AD** – Internal Training, DXC Technology India Pvt. Ltd.
- **AWS Fundamentals** – Internal Training, DXC Technology India Pvt. Ltd.
- **ITIL V3 Foundation** – Training Program
